DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-33, drawn to methods for clearing conditions for closing a real estate transaction, classified in class 705, subclass 36.
- II. Claims 34-49, drawn to interfaces for inputting closing conditions, classified in class 705, subclass 26.

The inventions are distinct, each from the other for the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process of Group I can be effectively practiced "by hand". Group I claims do not invoke any substantive technological features which move to assist in the practice of the methods

recited. Accordingly, such methods can be practiced without the technology invoked in Group II claims. Moreover, any nominal inference to technology recited in Group I claims (e.g. "electronically receiving" (claim 13)) certainly could be performed by any number of technologies which are not specific to the technology recited in Group II claims.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must

be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey A. Smith whose telephone number is 703-308-3588. The examiner can normally be reached on M-F 6:30am-6:00pm.
